SUMMARY

Aspiring Software Engineer with hands-on experience in designing and developing scalable full-stack applications, AI-driven solutions, and secure web systems. Proficient in Java, Python, React, Supabase and modern web technologies, with a strong focus on clean architecture, secure software development, and building scalable, user-centric applications. Passionate about solving real-world engineering challenges through continuous learning and practical innovation.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering M Kumarasamy College of Engineering, Karur CGPA: 7.3 (till 6th Semester)	2023 – 2027
Higher Secondary Certificate Bharathi Vidhayala Matric Higher Secondary School, Mulanur Percentage: 83.33%	2022 – 2023
Secondary School Leaving Certificate Vivekananda Hindu Matriculation School, Neelagoundanpatti	2020 – 2021

KEY SKILLS

Programming languages	: Java(Intermediate), Python(Advanced), JavaScript(Basic)
Frontend Languages	: HTML, CSS, React
Backend languages	: Flask, Node.js
Database	: Mongodb, Supabase
Tools	: Git, Github, Vs Code
Soft Skills	: Problem Solving, Team Collaboration, Time Management

PROJECT EXPERIENCE

WebSense Toolkit Platform: React, Firebase Description: Developed a cloud-based digital safety platform featuring real-time website analysis, authentication, centralized security scoring, and cloud deployment using React, Next.js, and Firebase. Website: https://websence.sanjaykumar.dev	January 2026 - February 2026
Student Information System Platform: HTML, CSS, JavaScript, Supabase Description: Developed a secure full-stack student management system with authentication, CRUD operations, and cloud-hosted database integration. Website: https://student.sanjaykumar.dev/	June 2024 - December 2024

INTERNSHIP EXPERIENCE

Movicloud Labs Private Limited Description: Developed and maintained enterprise web applications by implementing scalable frontend interfaces, backend functionality, and database integration within an Agile development environment. Role: Full-Stack Developer Intern Projects Worked: Restaurant Management System, College Management System. Tech Stacks : React, Python, MongoDB and Figma.	February 2026 - July 2026
--	----------------------------------

HDLC Technologies

July 2025 - July 2025

Description: Developed a house price prediction model using Python and machine learning techniques by analyzing real-world housing datasets and implementing regression-based prediction.

Role: Machine Learning Intern

CERTIFICATIONS

Cybersecurity Fundamentals — IBM SkillsBuild

August 2025

Human Computer Interaction — NPTEL

April 2026

Industry 4.0 & Industrial Internet of Things — NPTEL

October 2025

Responsible & Safe AI Systems — NPTEL

October 2025

Cybersecurity — Infosys Springboard

April 2026

CO-CURRICULAR ACTIVITIES

Thooral Hackathon – PSG College of Technology, Coimbatore

February 2026

Participated in a competitive hackathon focused on collaborative software development and innovative problem-solving.

Project Expo – M. Kumarasamy College of Engineering, Karur

February 2026

Presented a software project, demonstrating technical implementation and communication skills.

Kalam Awards – Mangayarkarasi College of Engineering, Madurai

September 2025

Showcased an innovative technical project and engaged with academic evaluators.

Drone Building & Flight Workshop – KSR College of Engineering, Tiruchengode

March 2025

Completed hands-on training in drone assembly, flight control, and embedded hardware fundamentals.

Flutter App Development Workshop – Kongu Engineering College, Erode

August 2024

Gained practical exposure to cross-platform mobile application development using Flutter.
